

*Construct Your Future – Build on Our Team!™*

## **Architectural Engineering Technologist**

Hampton Holdings is a leading edge Newfoundland owned and operated construction company specializing in metal building products and systems.

You are an excellent communicator, a self-starter, well organized, responsible, ultra dependable and you keep your eye on the bigger picture! You have an Architectural Engineering Technology Diploma, a keen interest in the commercial construction industry, up to date knowledge of AutoCAD and a minimum of 5 years relevant work experience. You will excel at customer service, estimating, shop and fabrication drawings, material quantification and purchasing, project administration, site coordination and inspections.

You will work with a team of technologists in a fast paced environment with exposure to a broad scope of products and construction processes. You will have opportunity to advance and grow with our rapidly expanding company.

Are you seeking independence in your work environment yet enjoy being a team player? If so, this is your invitation to consider building your career future with us!

Competitive compensation and benefits package offered. Health benefits are provided under Merit Contractor's Association. Application deadline open until suitable candidate found.

To consider this unique opportunity with our dynamic team please apply in writing only to:

Hampton Holding Inc., 56 Clyde Avenue, Mount Pearl, NL A1N 4S1

Fax: (709) 747-9298

Email: [jobs@hamptonholdings.com](mailto:jobs@hamptonholdings.com)

We thank you for applying. Only candidates under consideration will be contacted.
